EDUCATION

- ❖ Computer Science & Engineering | Parul University, Vadodara CGPA: 8.34 | Aug'21(3rd Year)
- ❖ XII (GSEB) | Ananya Vidhyalaya, Kalol 89.23% | 2021
- ❖ X (GSEB) | Lotus School, Kalol 89.67% | 2019

ACADEMIC PROJECTS

- ❖ **Spotify-Inspired Web Design Project: Built with HTML and CSS**
Developed a Spotify-inspired web interface using HTML and CSS, showcasing pixel-perfect UI elements and seamless responsiveness. Collaborated on iterative design improvements, resulting in a visually appealing and user-friendly frontend. Demonstrated proficiency in core frontend technologies without external frameworks. Eager to explore backend technologies for enhanced interactivity and contribute to full-stack projects.
- ❖ **Online Bookstore Application in Java**
Developed an Online Bookstore Application in Java using Apache NetBeans, creating a fully functional e-commerce platform for book enthusiasts. Implemented user registration, book browsing, searching, shopping cart, checkout, and order management features. Utilized MySQL for efficient databases management and HTML/CSS/JavaScript for a responsive user interface. The project demonstrates proficiency in Java programming, web development and database integration, delivering a user-friendly online shopping experience for book lovers.

SKILLS

- ❖ Java, C Programming
- ❖ HTML, CSS, Javascript
- ❖ SQL

EXPERIENCE

- ❖ **Virtual Intern | Bharat Intern**
(December 2023 – January 2024)

As a virtual intern, I contributed to diverse web development projects, including crafting a dynamic homepage replica for Netflix and designing my personal portfolio website. Using HTML, CSS, and JavaScript, I ensured the accurate representation of the Netflix design and created an interactive and user-centric portfolio. These experiences enhanced my proficiency in frontend technologies and underscored my ability to deliver engaging and responsive web interfaces.

ACHIEVEMENTS

- I Won in Pseudo Heist Game, Which was held by Projection (Gujarat's Largest Tech Festival) | (March 2022)
